Feature

Text from mobile or desktop

Send and receive texts from your dealership's existing phone number — no personal cell required. Works from any device, any time.

Service runs on text

Send service updates, coordinate pick-ups, and keep customers informed in real time. The voicemail days are over.

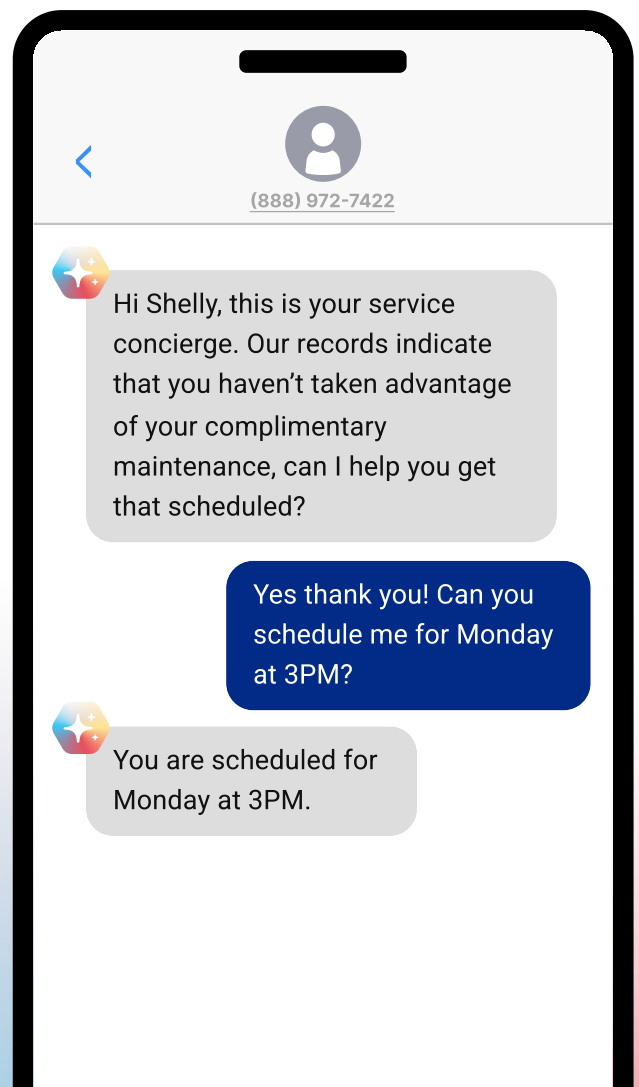

Double your website leads

Install the Kenect 'Text Us' widget on your website and watch inbound leads grow. Customers prefer texting over filling out forms.

Manual review requests

Send review requests directly to satisfied customers over text. A personal ask gets far more responses than an automated email ever will.
